Timely

Summary

About

Timely is a web application that organizes and manages one's projects and tasks. Users can make sure they complete their projects on time, while also micro managing their tasks within their projects to help them do so. Once a user adds a new project, it gets added to the users list of projects. From there, when the user has multiple projects running, it is possible can make certain projects a higher priority over others.

About

Timely is designed to target people who run multiple projects or tasks at a time. Mainly students, business individuals, freelancers, etc. will find this application extremely helpful. Ages range from 16-50.
